A Service Disabled Veteran Owned Small Business Serving the Machining Needs of the Mil/Aero Defense Industry for over 50 years

Protecting The Warfighter for over 50 Years

Founded in 1964, Raloid is a "best in class" small veteran-owned business providing precision machined components, assemblies and services to the Mil/Aero Defense Industry. We serve our customer base by offering "build to print" capability as well as concurrent engineering solutions. Raloid has an experienced work force averaging 20 years of company service. A privately held company, we pride ourselves on providing the highest quality components at the best price to meet our customers on time delivery goals.

- ✓ Small veteran-owned
- √ 65 employees
- √ 93,000 square feet
- ✓ Solely owned facility
- ✓ DUNS #: 00-310-8883

✓ EIN #: 52-0911143

✓ Cage Code: 33115

√ NAICS: 3327

✓ AS9100

Customer Base

Programs

Raloid has been doing business with Lockheed Martin for over 13 years and has participated in over 15 different programs. Our other major customers include:

- ATK
- BAE
- DRS
- General
- Kratos Defense
- Northrop Grumman
- Raytheon
- Textron

Dynamics

Raloid has supplied components to more than 25 major defense, weapons and vehicle systems including: Hellfire (Romeo) • JSF • Chaparral • Standard Missile • Patriot • WCMD • Javelin • Maverick • MMPV • JASSM • GMLRS • Aegis • DDG-1000 • Arrowhead • Sidewinder

THE RALOID DIFFERENCE

Low Risk

A financially sound, certified small veteran-owned business in one facility since 1964. This stability enables us to provide additional partnering strategies and serve as a "front end" investor for our customers.

Full Service

We have capabilities usually found in much larger companies, but with the flexibility of a smaller shop.

One Stop Shop

We maintain total in-house control of manufacturing processes & services. We provide milling, turning, fabrication, welding, painting and additional special processes under one roof.

Accountable

Our ERP System provides complete manufacturing traceability from quote stage to final delivery.

Quality

Raloid's QMS focuses on continuous improvement through the utilization of six sigma and regular kaizen events.

Lights Out

Our Makino A61 horizontal, 5 axis with MMC management system has "lights out" capability.
